Communication Masterclass <i>10 Minute School</i> ◦ Completed training in active listening, public speaking, corporate etiquette, leadership, and professional & personal communication.	Completed

Publications

Comparative Deep Learning Analysis of CNN, Transformer and Hybrid Architectures for Ovarian Condition Detection Link  ◦ International Conference on Computer and Information Technology (ICCIT).	2025
Attention Enhanced Deep Learning Framework for Lumpy Skin Disease Detection in Cattle Link  ◦ International Conference on Robotics, Automation, Artificial-Intelligence and Internet-of-Things.	2025
A Transfer Learning-Based CNN Approach for Accurate and Explainable Banana Ripeness Classification Using Hybrid Datasets Link  ◦ International Conference on Robotics, Automation, Artificial-Intelligence and Internet-of-Things.	2025

Projects

Assignment Management System ◦ A JWT-based Role-Based Assignment Management System with dedicated Admin, Teacher, and Student panels for managing classes, subjects, assignments, submissions, evaluations, marks, and feedback. ◦ Tools Used: C#, ASP.NET Web API, RESTful APIs, JWT Authentication, Entity Framework Core, HTML5, Razor, CSS3, Bootstrap, JavaScript, PostgreSQL	GitHub Repository 
Personal Finance Manager ◦ A Personal Finance Manager for tracking expenses, managing categories, viewing financial summaries, and maintaining detailed expense records with dates, amounts, and receipts. ◦ Tools Used: C#, ASP.NET Core MVC, N-Tier Architecture, Entity Framework Core, HTML5, Razor, CSS3, Bootstrap, JavaScript, MSSQL	GitHub Repository 
JWT Role and Token Based Authorization ◦ Developed an ASP.NET Web API JWT Role and Token Based Authorization system with secure access control and user authentication using JSON Web Tokens (JWT) for enhanced security in web applications. ◦ Tools Used: C#, ASP.NET Web API, ASP.NET Identity, RESTful APIs, JWT Authentication, Entity Framework Core, HTML5, Razor, CSS3, Bootstrap, JavaScript, PostgreSQL	GitHub Repository 
Solution of Non-Linear Equation ◦ Solving non-linear equations using various numerical techniques. ◦ Tools Used: Flask, Python, HTML, CSS, Bootstrap, JavaScript, MySQL	GitHub Repository 

Awards And Achievements

Competitive Programming Achievements ◦ Solved 1,300+ problems across various online judges and participated in 100+ programming contests. ◦ Codeforces Pupil (Rating: 1218) — Handle: Kamruzzaman
